Meet the Learning Manager and Mathematics Evening

Dear Parent/Carer,

This week you should have received your login details for INSIGHT. This enables you to view your child's first Assessment Point at George Spencer Academy along with a description of what each score represents in terms of Effort and Behaviour. If you have not received your login details, please contact the school.

Future Assessment Points will include a 'predicted grade' which is based upon the assessments completed in class time since starting with us in September, as such, they may differ from those attained at Key Stage 2. These will continue to vary throughout the year as a more detailed picture of your child's progress is generated. The 'predicted grade' represents the GCSE grade your child should achieve at the end of Year 11 if they continue to progress at their current rate. The results of the recent CATS4 assessments will be shared with the scan data at the next Assessment Point.

Following this, your child's Learning Manager will analyse the Assessment Point data and put into place any necessary interventions to ensure the students are able to progress in line with our expectations. Please take the time to discuss the Assessment Point with your child, celebrate their successes and set two targets to encourage them to improve any areas in which they are not excelling. All students should copy the data from each Assessment Point into their planner.

The 'Meet the Learning Manager Evening' on Thursday 7th November will be an opportunity for you to briefly discuss the first Assessment Point and to gain an insight into how your child has adjusted to life at George Spencer Academy, should you wish to do so. This will be held in the Math's block on Lower Site (Toton side). Appointments for the 'Meet the Learning Manager' evening are made via INSIGHT within the 'Parents Evening' tab. Please note that appointments will be kept **strictly to 5 minutes**. Your child's Learning Manager will provide an email address for you to contact them on, should you require a further conversation.

As well as this opportunity to meet your child's Learning Manager, the Mathematics faculty will be showing a presentation to outline what they can offer in terms of Curriculum, support and homework. There will be three, 20-minute presentations also in the Math's block at 5pm, 5:45pm and 6:15pm. There will also be an opportunity to talk with the teachers and take a look at some of the work they offer. You are free to attend any of these presentations.

Parking will be only available on Lower site (Toton side) - Please do not park on Upper Site or in the nearby residential streets. If you require a disabled space please call the school office.

Yours faithfully,

Mr L Richardson

Director of Learning Year 7
